

WELDING SPECIALIST SUPERVISOR

Position Details

Occupation: Welding Specialist Supervisor (Equivalent to ANZSCO Skill Level 3)

6-digit Code: 070499

Reports to: Manager or Lead Welding Manager

Position Description: Manage and supervise welding operations, using specialised and factual knowledge in the field of welding technology.

Main Duties and Tasks:

- Manage and supervise common or standard welding applications and related professional activities.
- Perform, supervise and/or oversee welding-related activities.
- Design and plan welding operations and implement the process according to plans.
- Devise and implement welding procedures.
- Supervise the tasks of welding and related personnel.
- Train welding-related personnel in operation of equipment.
- Set up welding machines.
- Procure welding equipment and consumables and ensure correct procedures are followed regarding set-up, usage and storage.
- Responsible for the quality of welding and welding-related activities.
- Undertake welding-related quality control inspections and clearances and sign on behalf of the organisation in welding quality-related matters.
- Troubleshoot issues and provide technical support to staff.
- Work with engineers to improve productivity and efficiency.

Skills, qualifications and experience:

AQF Certificate III including at least two years of on-the-job training, or AQF Certificate IV (ANZSCO Skill Level 3).

At least three years of relevant experience may substitute for the formal qualifications listed above.
